Matthias Rizzi

Polonium Evaporation Studies
from Liquid Metal Spallation Targets

Matthias RIZZI – originally from Vienna, Austria
studied chemistry at University of Vienna until 2009
since May 2010 PhD-student at Paul Scherrer
Institute (PSI) in the RadwasteAnalytics group of
Dorothea Schumann and Heavy Elements group of
Robert Eichler, Departement for Radio- and
enviromental Chemistry (LCH)
current studies: release of Polonium from lead-
based spallation targets
